# Abstract of the Certification Report of TFF

**The True Forex Funds** certification report presents a comprehensive analysis of a prop-trading platform that offers investors the opportunity to trade in the Forex market with external financing. Within the framework of a **two-phase** evaluation, traders are required to achieve an 8% profit in the first phase and 5% in the second, with a daily drawdown at the level of 5% and an overall drawdown of 10%, with no minimum number of trading days required. Various account sizes are available in three currencies, with a maximum fund reaching up to **\$400,000**. In the **second program**, which is **single-phase**, a 10% profit is required within 30 days, with a daily drawdown up to 3% of the initial account balance of the current day and an overall drawdown up to 6% of the initial account balance, and a minimum number of trading days set at 5.

The platform also introduces a **scaling plan**, allowing traders to gradually increase their deposit every three months, up to a maximum amount of **2.5 million USD**. To qualify for this program, investors must meet specific criteria, including achieving a **minimum 8% profit over a 90-day** period and making at least three successful withdrawals.

True Forex Funds offers a wide range of available assets for trading, including **currency pairs, indices, commodities, metals, stocks, and cryptocurrencies**. The platform features a profit-sharing system where traders receive **80% of the profits**.

Financially, True Forex Funds enables payments using **cards, bank transfers, and cryptocurrencies**. Withdrawals are processed **bi-weekly**, with the first withdrawal possible **14 days** after opening the first position. The platform also provides cryptocurrency withdrawal options such as **USDT, ERC20 and Advcash**, with full transparency and no additional charges for withdrawals.

Customer support is available throughout the week via **email and live chat**, with positive feedback regarding response speed and effectiveness. True Forex Funds also maintains an active presence on social media, sharing news, promotions, and various announcements on platforms such as **Instagram, Facebook, Twitter, Discord, and YouTube**.

Additionally, the True Forex Funds website includes tools such as a **dashboard, account statistics**, and an **equity simulator**, which assist traders in analyzing and evaluating their trading strategies. The platform also contains an **FAQ** section and **educational materials** available in the blog section, providing users with information about the basics of trading and fundamental concepts.

# Introduction

**Company Profile:**

True Forex Funds

**Incorporation Details:**

Date of Incorporation:

October 2021

Type:

Proprietary Firm

**Location of Operations:**

Móricz Zsigmond rkp. 1/B. fszt. 14, 9022,  
Győr, Hungary

**Restricted countries:**

Iran, North Korea, Syria

**CEO of True Forex Funds:**

Richard Nagy is the Chief Executive Officer of True Forex Funds.

# Challenge Types

## True Forex Funds

### Assessment of the General Rules "2 - Phase Evaluation"

The True Forex Funds Standard Challenge requires passing **2 phases** to receive a funded account. When purchasing an account, one can choose from three currencies: dollar, pound, and euro. There are **5 account sizes** available:

- \$10,000, \$25,000, \$50,000, \$100,000, \$200,000
- £10,000, £20,000, £35,000, £70,000, £140,000
- €10,000, €20,000, €40,000, €80,000, €160,000

The True Forex Funds Standard Challenge has a leverage level of 1:100. The total amount of funds available to the investor cannot exceed \$400,000. This means that an investor can have, for example, two accounts of \$200,000 each.

#### First Phase Goals/Conditions:

- Achieving 8% profit with no day limit
- Daily Drawdown up to 5% of the current account balance
- Overall Drawdown up to 10% of the initial account balance
- Minimum number of trading days: 0

#### Second Phase Goals/Conditions:

- Achieving 5% profit with no day limit
- Daily Drawdown up to 5% of the current account balance
- Overall Drawdown up to 10% of the initial account balance
- Minimum number of trading days: 0

#### Funded Account Goals/Conditions:

- No specified profitability targets
- Daily Drawdown up to 5% of the current account balance
- Overall Drawdown up to 10% of the initial account balance
- No minimum number of trading days

After moving to this stage, the investor receives a **100% Refundable Fee**. The first withdrawal can be made 14 days after the first trade. Subsequent withdrawals can be made every two

weeks. The Profit Split is 80/20, meaning the investor receives 80% of the profit generated by them.

There is also an option for a Scaling Plan.

Traders also have the flexibility to opt for a **swap-free account**, albeit at an additional cost of 10% compared to the standard price of the challenge account. This feature caters to traders who prefer or necessitate swap-free accounts for various reasons, including specific trading strategies or compliance with religious principles. Swap-free accounts are characterized by the absence of overnight financing charges or payments, making them a suitable choice for individuals seeking to avoid such costs and tailor their trading experience to their specific needs

✔ **Phase 1:**

Requires achieving an 8% profit

✔ **Maximum sum of funds:**

Up to \$400,000 in total

✔ **Conditions:**

Trading crypto on weekends

## Assessment of the General Rules "1 - Phase Evaluation"

The True Forex Funds Timeless Challenge requires passing **1 phase** to receive a funded account. When purchasing an account, one can choose from three currencies: dollar, pound, and euro. There are **5 account sizes** available:

- \$10,000, \$25,000, \$50,000, \$100,000, \$200,000
- £10,000, £20,000, £35,000, £70,000, £140,000
- €10,000, €20,000, €40,000, €80,000, €160,000

The True Forex Funds Timeless Challenge has a leverage level of 1:100. The total amount of funds available to the investor cannot exceed \$400,000. This means that an investor can have, for example, two accounts of \$200,000 each.

### First Phase Goals/Conditions:

- Achieving 10% profit within 30 days of the first trade
- Daily Drawdown up to 3% of the initial account balance of the current day
- Overall Drawdown up to 6% of the initial account balance
- Minimum number of trading days: 5
- Challenge Leverage: 1:100

### Funded Account Goals/Conditions:

- No specified profitability targets
- Daily Drawdown up to 3% of the initial account balance of the current day
- Overall Drawdown up to 6% of the initial account balance
- No minimum number of trading days
- Challenge Leverage: 1:100

After moving to this stage, the investor receives a **100% Refundable Fee**. The first withdrawal can be made 14 days after the first trade. Subsequent withdrawals can be made every two weeks. The Profit Split is 80/20, meaning the investor receives 80% of the profit generated by them. There is also an option for a Scaling Plan.

✔ **Conditions:**

Only one phase.

✔ **Maximum sum of funds:**

Up to \$400,000 in total.

✔ **Crypto trading:**

Trading crypto on weekends

✘ **Phase 1:**

Number of days required to achieve profit from the first trade: 30.

✘ **Conditions:**

Daily Drawdown up to 3% and overall

Drawdown up to 6% of the initial account balance of the current days

## Assessment of Special Rules

The prop-trading platform True Forex Funds **allows** its investors to:

Leave positions open **overnight and during weekends**

Trade during **significant economic events**

**Use robots** for transaction execution

Trade cryptocurrencies **during weekends**

At the same time, it is important to emphasize that **True Forex Funds do not provide** low spreads during significant economic news or when positions are held overnight. In such situations, traders deciding to hold positions must bear the consequences of their decisions on their own.

## Scaling Plan

The True Forex Funds Platform introduces a significant feature called the **Scale Up offer**, providing their customers with the opportunity to progressively increase their account deposits at intervals of 3 months, with a maximum limit of 2.5 million USD. To participate in this program, investors need to meet **specific criteria** to ensure eligibility:

1. Achieve a minimum of 8% overall profit in their funded account over a 90-day period. Execute at least three successful withdrawals before they can qualify for the scaling-up opportunity.
2. Upon successfully fulfilling these requirements, the True Forex Funds Platform automates the account upgrade process, allowing investors to increase their account balance by 25% every 90 days. It is also worth mentioning that the loss limits are adjusted to align with the new deposit size after each scaling-up.

## Extra extraordinary rules

### Terms & Conditions

Upon reviewing the **Terms and Conditions of True Forex Funds** (TFF International Kft), there is aspect that could be considered as concerning or at least warranting close attention:

**Indemnification and Limitation of Liability (Section 13):** The broad indemnification and limitation of liability clauses, which significantly limit the company's liability and place much of the risk on the user, could be a concern. Such clauses are often standard in many agreements, but they can be a red flag for users about the level of risk they are assuming.

**Reference:**

**"13.2.** The information, software, products, and services included in or available through the site may include inaccuracies or typographical errors. Changes are periodically added to the information herein. True forex funds and/or its suppliers may make improvements and/or changes in the site at any time.

**13.3.** Neither true forex funds nor its agents, directors, shareholders, members, partners, managers, officers, employees, information providers, attorneys, or affiliates shall have any liability with respect to, and you hereby waive, release, and agree not to sue any of them upon, any claim for any special, indirect, incidental, or consequential damages suffered or incurred by you in connection with, arising out of, or in any way related to, this agreement or your use of any of our services even if we have been advised of the possibility of damages. If you are dissatisfied with the platform or services, or any content contained therein, your sole and exclusive remedy is to discontinue using the platform and services. As used herein.

**13.4.** This limitation applies to the extent permitted by law.

**13.5.** You agree to indemnify, defend and hold harmless us, our officers, directors, employees, agents and third parties, for any losses, costs, liabilities and expenses (including reasonable attorney's fees) relating to or arising out of your use of or inability to use the Site or services, any user postings made by you, your violation of any terms of this Agreement or your violation of any rights of a third party, or your violation of any applicable laws, rules or regulations. We reserve the right, at our own cost, to assume the exclusive defense and control of any matter otherwise subject to indemnification by you, in which event you will fully cooperate with us in asserting any available defenses."

### Funded Account Agreement

After comparing the **Terms and Conditions** and the **Trader Agreement of True Forex Funds**, several concerning **aspects unique** to the Trader Agreement emerge:

- **Intense Data Sharing and Consent** (Section 2.3 & 2.4 of Trader Agreement):

The Trader Agreement explicitly states that the Trader consents to the Company sharing their trading data with affiliated entities and using this data at their own discretion. This level of detailed consent regarding data usage is more explicit and comprehensive than in the general terms, raising significant privacy concerns. **Reference:**

- o Section 2.3: "The Trader acknowledges that the company has access to information about the demo trades that the Trader performs on the Trading Platform. The Trader grants the company their consent to share this information with persons/entities who are in a group with the company or who are otherwise affiliated with the company..."

- o Section 2.4: "The Trader agrees that these activities may be performed automatically without any further consent, consultation, or approval on their part being necessary and that the Trader is not entitled to any remuneration or revenue associated with the use of the data by the company."

- **Extensive Indemnification Obligations** (Section 9 of Trader Agreement):

The Trader is required to indemnify the Company against a wide range of potential losses or damages, including those arising from the Trader's own actions. This indemnification is more extensive than standard liability clauses, placing a significant legal and financial burden on the Trader. **Reference:**

- o Section 9.2: "The Trader hereby agrees to indemnify, defend and hold the Company and its officers, directors, employees, corporate affiliates and agent harmless from any loss, damage, liability, claim, cost, awards and expense, including but not limited to reasonable attorneys' fees, arising out of or his or her illegal and/or wrongful doing and/or any breach of Agreement."

- **Limited Liability and Disclaimer Specific to Trading** (Section 8 of Trader Agreement):

The Trader Agreement specifically disclaims the Company's responsibility for any trading advice or the profitability of trading actions, emphasizing that all trading risks are borne by the Trader. This clause is more focused on trading activities than general terms and could leave the Trader exposed to higher risks without support. **Reference:**

- o Section 8.1: "It is hereby clarified that the Company, its managers, employees, shareholders and any entity on its behalf, do not claim to advise any person with regards to any transaction under this Agreement. Therefore, the information appearing on the company's platform, any notices, data or other materials appearing therein shall not be viewed as a recommendation or opinion on the subject..."

- **Confidentiality Agreement with Legal Consequences** (Section 19 of Trader Agreement):

The confidentiality obligations in the Trader Agreement are more stringent, with an emphasis on legal actions against the Trader for any breach. This level of confidentiality obligation is generally not detailed in standard terms and conditions and imposes a lasting and significant constraint on the Trader. **Reference:**

- o Section 19: "The Trader acknowledges and agrees that their obligation of confidentiality is for an indefinite duration and they will never disclose any information to any person or entity or publicly disclose, except expressly approved by TFF International. or as may be required by

law. If the Trader breaches the Confidentiality Agreement, legal actions will be taken against the Trader."

## Prohibited strategies

Upon inquiry with the Support team regarding **trading strategies**, it has been confirmed that True Forex Funds prohibits strategies that are only mentioned in the Terms of Use or FAQ. These **prohibited strategies** include:

- Employing strategies that exploit inaccuracies in the display of prices or delays in their updates.
- Conducting transactions that rely on external data feeds.
- Any trading activities aimed at tampering with the trading process.
- Actions that contradict the Terms and Conditions set by the Provider.
- Trading practices that are inconsistent with real-world forex market operations or could potentially cause financial loss or damage to the Provider.
- Surpassing the maximum capital allocation allowed by the Provider, as specified in the website's FAQ.
- Engaging in reverse arbitrage.
- Participating in latency arbitrage.
- Conducting hedge arbitrage.

## Verification process

### Document Submission and Verification:

Clients are required to submit **KYC (Know Your Customer)** documents as a regulatory requirement to secure operations and enable the setup of the Funded Account.

This process is initiated after the successful completion of one of the evaluation options (Two Phase, One Phase, Quick, or Limitless Funding).

### Required documents include:

- Personal ID and Selfie:** Acceptable forms are government-issued ID, valid passport, national identification card, driving license, or other government-issued forms of ID.
- Proof of Address:** Documents must be no older than 3 months, issued by a financial institution, utility company, government agency, or judicial authority. These should match the personal information on the dashboard.

### Review Process:

The submitted documents will be reviewed by the verification team, facilitated by Veriff, to ensure compliance and authenticity.

Once the review is successful, the client's Funded Trader account configuration will be initiated.

### Account Activation:

Typically, the new funded account will be available to the client on the next business day following the successful document review and account configuration.

## Scaling Plan

True Forex Funds Platform introduces a noteworthy feature called **the Scale Up offer**, providing their customers with the opportunity to progressively increase their account deposits at intervals of **3 months, with a maximum limit of 2.5 million USD**. To participate in this program, investors need to meet **specific criteria** to ensure eligibility:

- Achieve a minimum of 8% overall profit in their funded account over a 90-day period.
- Execute at least three successful withdrawals before they can qualify for the scaling up opportunity.

Upon successfully fulfilling these requirements, True Forex Funds Platform automates the account upgrade process, allowing investors to boost their account balance **by 25% every 90 days**. It is also worth mentioning that the loss limits are adjusted to align with the new deposit size after each scaling up.

## Pricing

### Comparison of Direct Challenge Costs

We compare the direct costs of participating in the challenge offered by TrueForexFunds - 2 Phase Evaluation with the average market costs. This analysis enables understanding of how True Forex Funds fares against its competitors in terms of pricing. The costs for the challenge at True Forex Funds for the 2 Phase Evaluation are **mostly like** the market average.

| Challenge Size | Market Average Price | Challenge Price | Difference |
|----------------|----------------------|-----------------|------------|
| 10 000\$       | 113\$                | 96\$*           | -17\$      |
| 25 000\$       | 213\$                | 205\$*          | -8\$       |
| 50 000\$       | 315\$                | 324\$*          | +9\$       |
| 100 000\$      | 553\$                | 540\$*          | -13\$      |
| 200 000\$      | 954\$                | 1 081\$*        | +127\$     |

*The table shows a comparison of the average market price for the challenge to the price at E8 Funding.*

*\*The price includes a discount available on [fxprop.com](https://fxprop.com).*

### Comparison of Costs Relative to Drawdown

It is important to note that the size of drawdown has a significant impact on what we actually receive for the money spent. The 2 Phase Evaluation has a drawdown at the level of 10%. Therefore, we additionally compare how much drawdown we receive in relation to the dollar spent.

| Challenge Size | Market Average Price<br>[Drawdown\$/\$] | Challenge Price<br>[Drawdown\$/\$] | Difference<br>[Drawdown\$/\$] |
|----------------|-----------------------------------------|------------------------------------|-------------------------------|
| 10 000\$       | 8,8                                     | 10,4                               | +1,6                          |
| 25 000\$       | 11,4                                    | 12,2                               | +0,8                          |
| 50 000\$       | 15,3                                    | 15,4                               | +0,1                          |
| 100 000\$      | 18,0                                    | 18,5                               | +0,5                          |

## Server Provider

True Forex Funds does not disclose its liquidity providers. The firm's strategy emphasizes offering spreads as low as 0.0 pips, enabled by these partnerships with tier-1 liquidity providers. TFF doesn't disclose comprehensive details about its liquidity providers but assures collaboration only with well-regarded entities.

Here are some **examples of reviews** on this matter:

**Mamani Mohammed Dulana**  
 1 review    GH

**True Forex Funds has the best spreads...**

True Forex Funds has the best spreads in the Business. Having 0 pip spreads has allowed me use some tights SLs, thereby maximising the profit potential every single pip movement in the market. Did not notice any significant slippage either. I would recommend True Forex Funds any day. They are reliable.

**First time getting funded with this...**

First time getting funded with this firm i haven't got my payout but lookin forward to it. Spreads and slippage are amazing, support is very responsible and helpful Till now its one of the best firms with amazing conditions and 14 days to first payout

### Good fund

Good fund, stable and low spread. Payment on time and quickly. Hopefully the fund will grow more and more so that traders can accompany it.

### Operations with delays and bad company

I relatively recently wrote a negative review of this company. It continues to give the same problems (very serious) in market entry and exit, as well as SL movement with a lot of delay. The worst of all is the solution they have given me, removing the negative review in exchange for a new account, I am going through phase 2 in my current challenge, which makes no sense. There are literally operations that have taken more than a minute to enter the market. I have evidence to prove it, they have it. Unfortunately I cannot put any email so that everyone can see the evidence, but it will be spread through other means, because it is embarrassing. I still believe that true forex funds is not a scam, I can assure you, but what is certain is that their liquidity provider is very bad.

## Platforms

True Forex Funds offers trading on the **cTrader** platform. However, it's important to recognize that the wider market of trading platforms includes a variety of other well-known platforms too. In this light, the decision of True Forex Funds to concentrate exclusively on cTrader might be considered a simplistic strategy.

## Leverage

True Forex Funds provides its traders with a range of fixed leverage options to accommodate various trading instruments. Here are the specific fixed leverage ratios offered for different asset classes:

- Forex: 1:100
- Metals: 1:100
- Energies: 1:100
- Indices: 1:100
- Stocks: 1:10
- Cryptocurrencies: 1:5

*This table shows an average spread of the available instruments*

## Methodology

The methodology for calculating the **average spread** at various times of the day involved taking three separate spread measurements at approximately 10-minute intervals. These measurements were conducted at specific times to represent morning, afternoon, and evening averages:

### Morning Average

This average was calculated based on three spread measurements taken around 08:00 GMT, with each measurement approximately 10 minutes apart.

### Afternoon Average

For the afternoon average, three spread measurements were similarly taken around 13:00 GMT, at roughly 10-minute intervals.

### Evening Average

The evening average involved three spread measurements conducted around 18:00 GMT, also with approximately 10-minute intervals between each measurement.

The average for each of these time periods was calculated using the following formula:

$$\text{Average} = (\text{Measurement 1} + \text{Measurement 2} + \text{Measurement 3}) / 3$$

Subsequently, to determine the Daily Average spread, the averages obtained for the morning, afternoon, and evening were combined using a similar formula:

$$\text{Daily Average} = (\text{Morning Average} + \text{Afternoon Average} + \text{Evening Average}) / 3$$

# Deposits and Withdrawals

## Deposits

For the True Forex Funds Challenge, you can pay via **bank transfer, debit/credit card or cryptocurrencies**. True Forex Funds accepts **MasterCard, Visa and cryptocurrencies like Bitcoin (BTC), Ethereum (ETH), Litecoin (LTC), Dogecoin (DOGE), Tether (USDT), USD Coin (USDC)**.

Due to regulatory reasons, bank transfers **are not available** for payments/withdrawals in Iran, Syria, North Korea.

## Withdrawals

True Forex Funds operates on a bi-weekly payout cycle, ensuring that traders receive their earnings every 14 calendar days. Withdrawals are even processed over the weekend to ensure timely payouts. This cycle commences after a trader's first position is opened on a funded account, and payout notifications are sent via email.

In True Forex, a profit split system has been introduced, in which 80% of closed profits from funded accounts go to the traders, while the remaining 20% helps cover True Forex Funds' expenses. The process for traders to withdraw their earnings is designed to be simple and straightforward.

Crypto payouts (USDT ERC20) and Advcash are the primary, secure, and proven methods for processing withdrawals at True Forex Funds. The company is committed to ensuring swift and secure financial transactions, fulfilling its promise of exceptional service to its valued clients.

By choosing Advcash, traders can withdraw their funds from their Advcash account by bank transfer, to their VISA/MasterCard, Advcash Card, or even Crypto. It is also possible to withdraw cash from an ATM with an Advcash plastic Card. The only information required is the trader's Advcash email address.

For clients based in the US or the UK, who are unable to utilize Advcash, True Forex Funds continues to offer direct bank transfers as well as cryptocurrency payouts via USDT ERC20 to accommodate their needs.

At True Forex Funds, transparency is a priority – no commissions are charged for withdrawals, so traders receive exactly what they earn.

## Reviews on Withdrawals

True Forex Funds has **good reviews** regarding payments and withdrawals. There are occasional individual dissatisfaction reviews.

## Example reviews:

Nov 29, 2023

### Great and Trustworthy

Ok I've only received a £150 from a 10k so not a big account but great spreads, customer service.

Trustworthy gave me my payout - did take a lo week however but I assume if you use crypto it would be quicker

Also sometimes issues with delayed executions, has improved but still exists.

For the most part, wld highly reccomend for traders who trade below m5 tf on execution / scalpers.

### Please change automatic withdrawal

I love everything about this company except the automatic withdrawal. I wish the withdrawal process was based upon my choosing rather than automatic. Then I could time my withdrawal to occur when not trading. Other than that, this company is definitely 5 star.

### They avoid large payout and terrible support

I was supposed to get a payout of over \$38,000 from my account they delayed my bi weekly payout and when it was time for them to pay me, they told me the strategy I used was identical to some other people and it causes risk to them , as it is against their terms and conditions , what part of your terms and conditions am I violating??? They haven't replied , so if I am trading trend lines or supply and demand and I'm using 1:1 or 2:1 does it mean any other person trading supply and demand stands the risk of not getting paid because our strategies were identical. Before this issue they reply mails through support but after putting my payout on hold for 4 days now I haven't heard a word from them till now, if you would deny a person a payout that large with a vague excuse , no direct reason then what kind of prop firm are you, people they pay and all, but if you're looking for large payout or if you hope to be a big time trader, I would advice you don't use small prop firms like this because they will always have an excuse not to pay you , as their terms and conditions for funded trader clearly states " we can choose not to pay you or suspend your account without giving any defined reason" believe me this isn't the kind of prop firm you want to stay with long, I'm still waiting for their reply to tell me if my crime was making too much money. Atleast this will attract their attention

### Unhappy with TFF

Had the best experience with TFF, they are everything they portray and more. Their customer service is the best, I received my profit split to Deel two weeks ago and I'm so glad, this is my first payout from a prop firm. My second payout not quite like the first, how can you just bring up a clause when I qualify for payout. They didn't have any lotsize consistency rule until now, its unfair. Now I must wait for another 2 weeks to receive my payout. TFF I'm so disappointed

### My honest review

I will rate my trueforexfunds 100%, they may be new but trust worthy. Good spread and leverage. And very responsive and active customer service. Payout was fast. Thanks trueforexfunds.

**Date of experience:** February 28, 2022

Jan 11, 2023

### **100% Reliable and Trustworthy Prop Firm**

I have been funded with TFF for a number of months now and received several payouts. They are all usually on the same day as withdrawal date and if not, early the next day.

A few people on telegram has been making a few complaints recently, however I believe that if you stick to the rules, TFF will reward you accordingly.

A prop firm that I 100% trust.

**Date of experience:** January 11, 2023

# Support

True Forex Funds provides **round-the-clock customer support** from Monday to Friday through **email and live chat**. Below is a list of available channels:

- **Physical Office Address** - Móricz Zsigmond rkp. 1/B. fszt. 14, 9022, Győr, Hungary.
- **Email ID** - support@trueforexfunds.com
- **Live Chat** - Directly available from the site.

True Forex Funds users can also contact experts through social media channels:

- **Facebook** - <https://www.facebook.com/trueforexfunds>
- **Twitter** - <https://twitter.com/trueforexfunds>
- **Instagram** - <https://www.instagram.com/trueforexfunds>
- **YouTube** - <https://www.youtube.com/channel/UCy7PJ2gJznmEFP9DPZJ44Hg>
- **Discord** - <https://discord.com/invite/5fbuf6qNsE>

True Forex Funds also has a help center page (<https://trueforexfunds.com/faq>) where various issues and answers to them are located to help clients trade smoothly and without problems. All they need to do is search for a query. Articles related to the same will be displayed.

## True Forex Funds Support Performance Evaluation

The performance of the support was verified by FXProp in the period 14-30.11.2023.

### Email Support

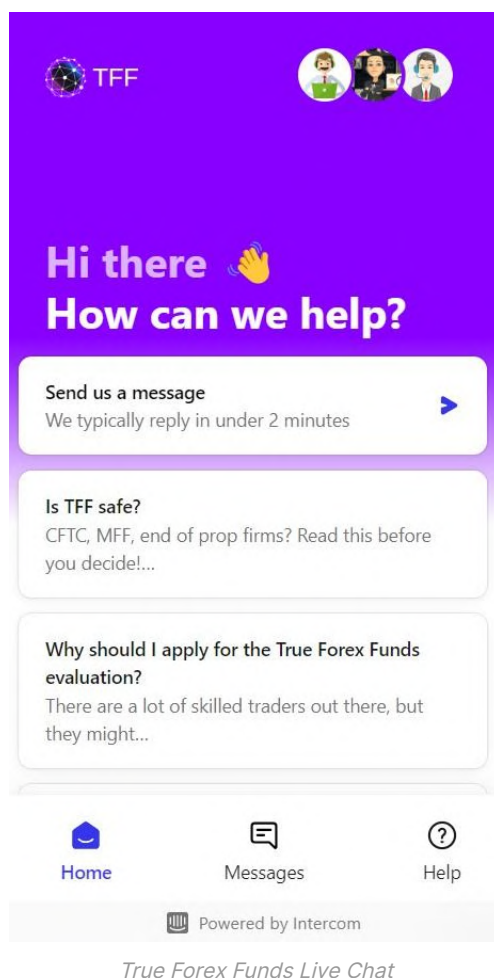

Clients can contact True Forex Funds using **email**. The support responses are substantive. The company responds quickly to emails. The average response time in this form of communication is 15 minutes. Thus, the waiting time is about 10 minutes longer than in a live chat conversation.

**The email contact for support:**  
[support@trueforexfunds.com](mailto:support@trueforexfunds.com)

### Live Chat Support

**True Forex Funds has good live chat.** Company offers the option of contacting through **live chat** on their official website. It's a quick and efficient way to get help from their support team. The average waiting time to start a conversation is **2-3 minutes**, depending on the time of day and traffic intensity.

After writing to support, a chatbot appears. You must choose the issue you are interested in, and if the chatbot cannot answer, a customer service button will appear, which connects you with an expert. Live chat staff respond quickly and substantively to the questions asked. In case of doubts, they expand on the topic. They use links with information that can be found on their website. They provide answers to all questions allowed by the company's policy. During conversations, after each of our statements, a message appears thanking us for asking the question and informing about the quickest possible response. It is irritating and clutters the conversation during the chat. It is the fastest form of support and resolution of any problems that may arise.

**Verified**  
by fxprop

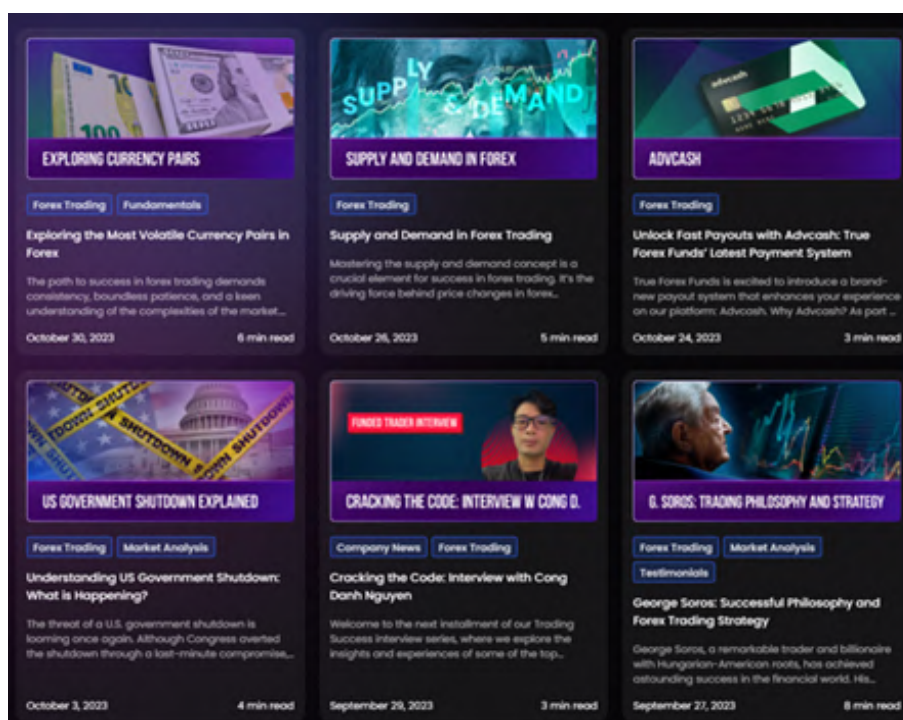

True Forex Funds has a well-functioning live chat. The average waiting time for a response is 2-3 minutes. An advantage of the company is the round-the-clock access to the support team from Monday to Friday. True Forex Funds does not have telephone support. This was verified by FXProp during the period 14-30.11.2023

# Access to Knowledge

## Educational Materials

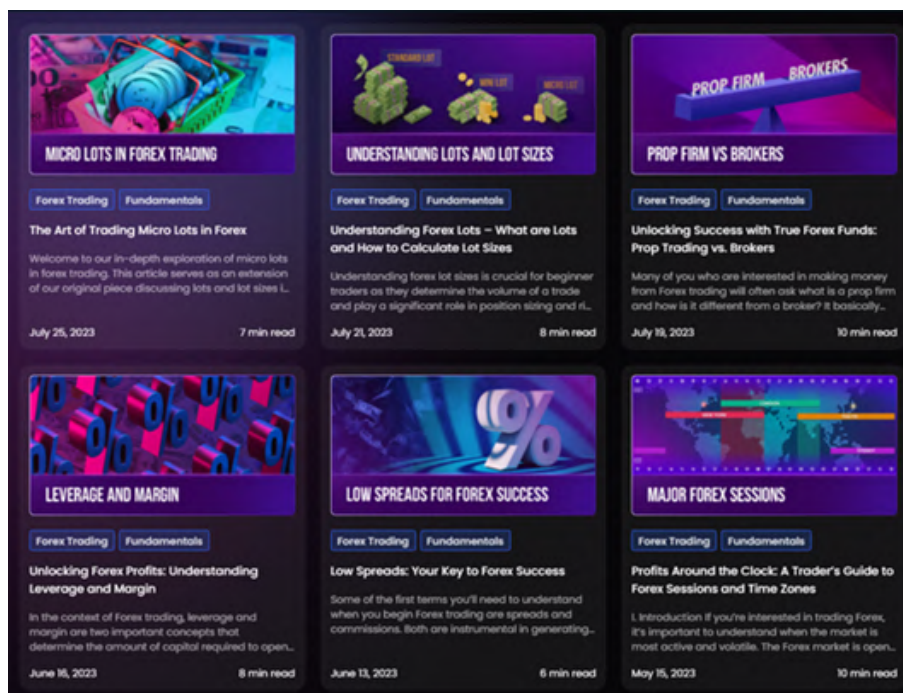

While True Forex Funds Platform may not offer a dedicated learning platform, investors can still access **educational materials** through the Blog section. The Blog section is further divided into four distinct categories, with a focus on educational content within the following three:

- **Forex Trading:** The Forex Trading category offers a blend of content, catering to both educational purposes and insights from interviews. Users can explore a range of materials that provide insights into the world of forex trading.

Blog Section #1 Forex Trading

- **Fundamentals:** The Fundamentals section serves as a dedicated educational resource, featuring multiple articles that delve into trading basics and fundamental concepts.

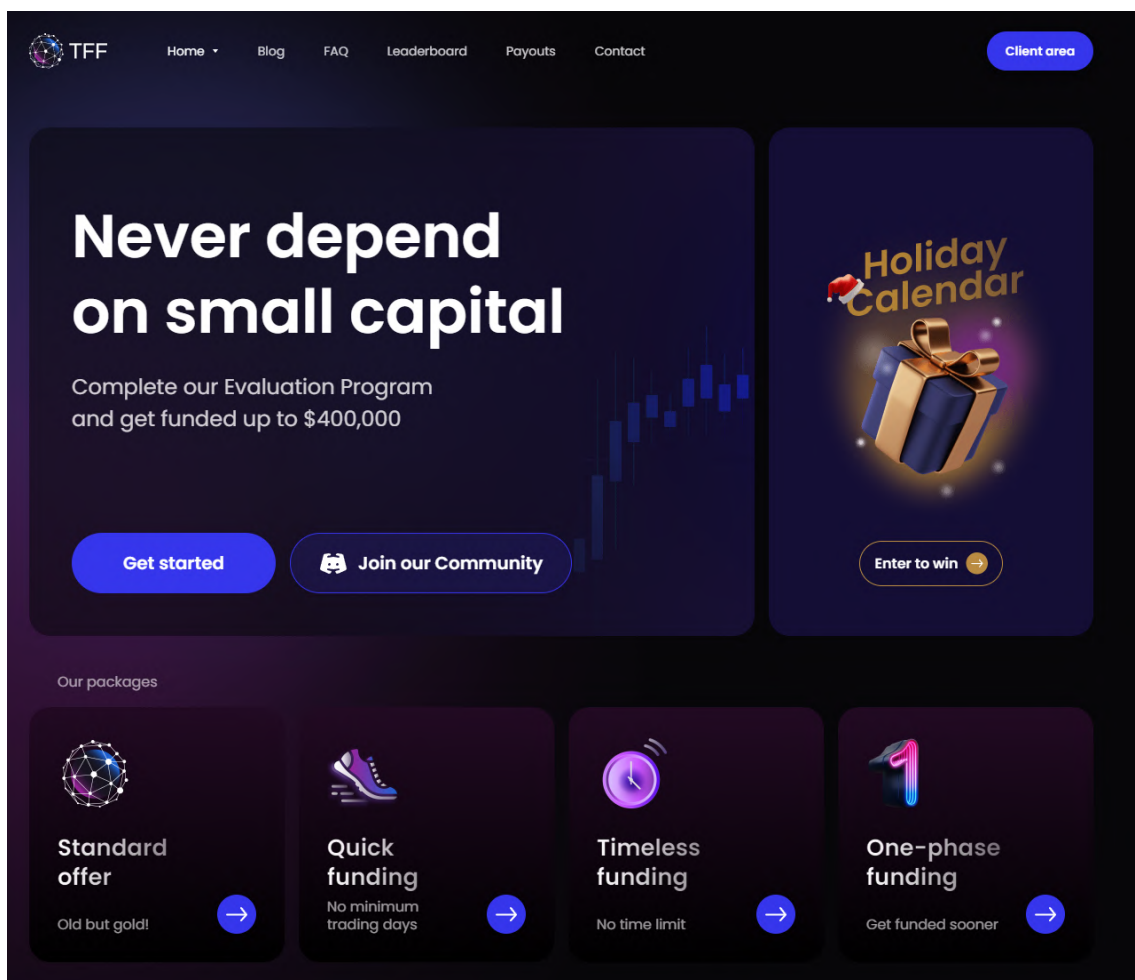

Blog Section #2 Fundamentals

# Web Platform Assessment

## Design and Usability

TrueForexFunds website offers a notably positive UX experience, clearly outlining its services and the prop trading concept. The registration and challenge purchase processes are straightforward, user-friendly, and guide users seamlessly. The website operates smoothly with minimal loading times, and the well-designed dashboard facilitates easy navigation and access to essential information.

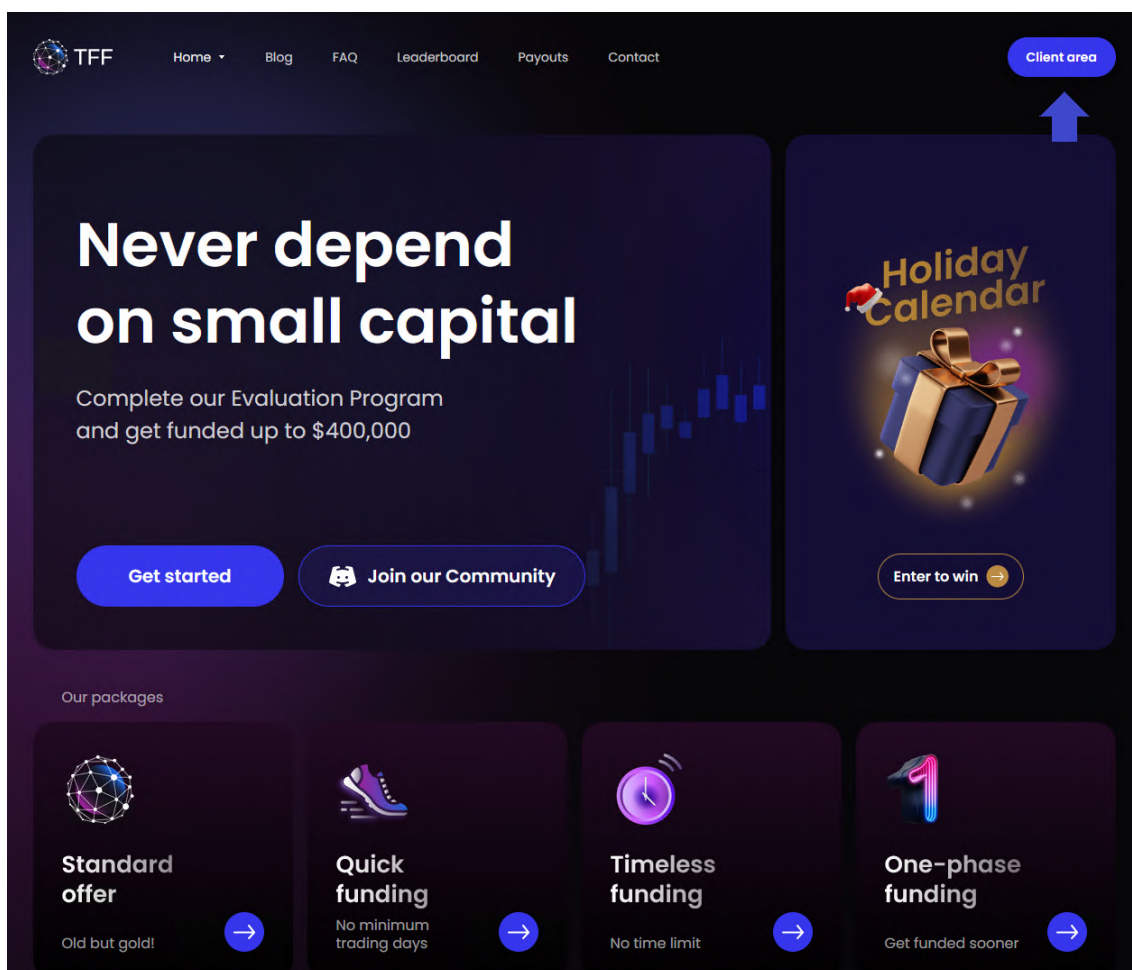

However, the overall dark design could impact text readability and cause eye strain for some users. Improving text readability and balancing the visual elements would greatly enhance the overall UX. Incorporating more customizable visual settings could offer users the flexibility to adjust the interface according to their preferences, thereby catering to a wider audience.

## Additional Tools/features

### Dashboard

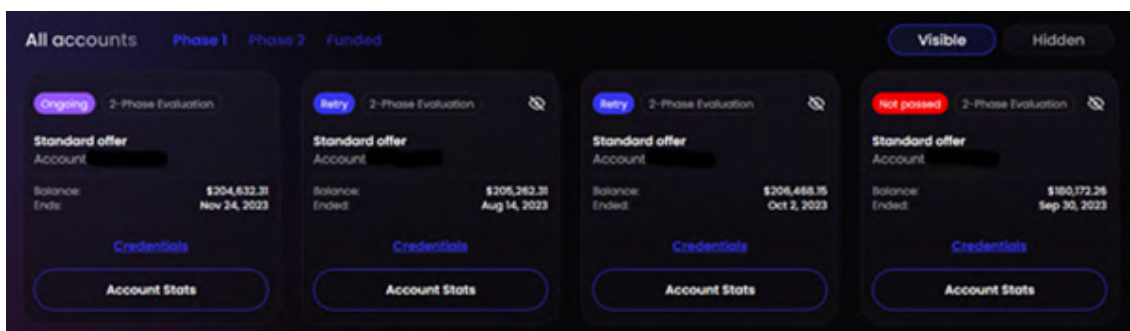

Dashboard is a tool integrated in the TFF web page. Here user can find:

- **Common balance chart:** Part of the dashboard in which users can quickly monitor multiple accounts balance status. Users also can choose to hide or to show separate challenge for monitoring convenience.

Dashboard Overview #1 Common balance chart

- **All accounts section:** In this section the user can see all of his past and actual challenges as well as get access to credentials and Account Stats to every one of them.

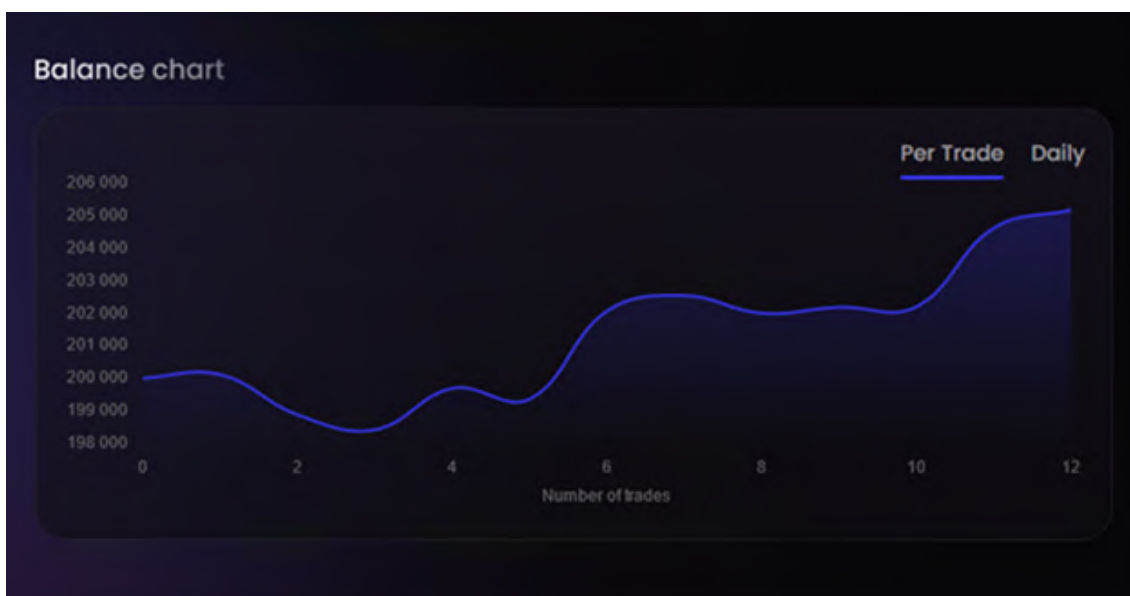

Dashboard Overview #2 All accounts section

## Account Stats

**The Account Stats tool**, accessible through the Dashboard on the platform, provides traders with insights and metrics. Here are the key sections and metrics available within the Account Stats tool:

- **Balance Chart:** This chart offers a graphical representation of the user's challenge progression, allowing for a visual understanding of the account's performance over time.

Account Stats Overview #1 Balance Chart

- **Challenge basic info:** In this section, traders can access essential challenge details, including the initial deposit, start date, end date, remaining time, broker, platform, balance and equity.

| Phase 1 Account |                             | Ongoing |
|-----------------|-----------------------------|---------|
| Deposit:        | \$200,000.00                |         |
| Start date:     | Oct 24, 2023, 2:10:28 AM    |         |
| End date:       | Nov 24, 2023, 2:10:28 AM    |         |
| Remaining time: | 23 days 12 hours 27 minutes |         |
| Broker:         | True Proprietary Funds Kft. |         |

## Simulator

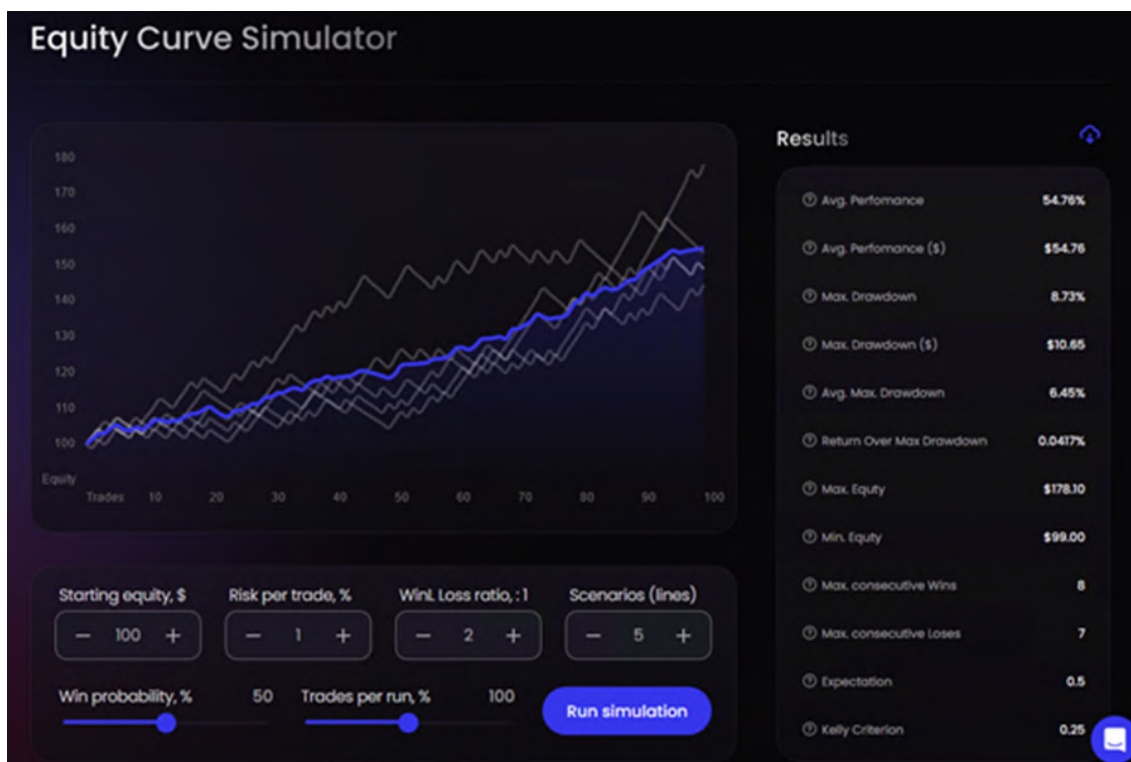

**The Equity Simulator** is a powerful application integrated into the website's Client Area, serving as a **tool for traders** seeking to evaluate and analyze trading strategies. The primary objective of this application is to facilitate the testing of trading strategies by providing insights into various potential outcomes.

### Key features of the Equity Simulator include:

**Adjustable Variables:** Users can manipulate several variables to customize simulations according to their trading strategies. These variables include starting equity (\$), risk per trade (%), win/loss ratio (L:1), Scenarios (lines), win probability (%), trades per run (%).

Upon executing the Equity Simulator with the desired variable adjustments, users receive a comprehensive **simulation result** that includes:

- **Visualization Chart:** The simulator generates a visual chart representing the simulation process, providing an overview of how strategy performs under various scenarios.
- **Statistical Table:** A table presents statistics derived from the simulation. These statistics include average performance (% and \$), maximum drawdown (% and \$), avg. max. drawdown, return over max drawdown, maximum equity, minimum equity, max. consecutive wins, max. consecutive losses, expectation and kelly criterion.

## Client Reviews Summary

Ratings of the True Forex Funds platform

- **Trustpilot** – 4.4 (2918 opinii)
- **Trustindex** – 4.7 (1031 opinii)
- **Reviews.io** – 2.3 (36 opinii)

True Forex Funds (TFF) has an overall score of **4.4** out of 5, indicating a generally positive reception among its users. **The TFF's approach to responding to ~50% of negative reviews** also reflects a level of engagement with customer feedback. The following points synthesize the key insights from both positive and negative reviews:

### Positive Aspects

- **Customer Support:** Many traders commend TFF for good customer service, noting responsiveness and effectiveness in addressing issues.
- **Payout Process:** The reliability of payouts is appreciated, despite occasional delays. The option to use crypto for quicker payouts is also noted.
- **Trading Conditions:** Traders appreciate the low spreads on various pairs and the overall trading environment provided by TFF.
- **Challenge Models:** The challenge models, including the One Step Challenge, are seen as innovative and trader-friendly.
- **Trading Platform and Execution:** While there are some complaints, many traders find the trading platforms suitable and appreciate the execution speed.

### Negative Aspects

- **Allegations of Scamming:** Some traders accuse TFF of fraudulent activities, particularly relating to account closures and withholding profits.
- **Issues with Trade Execution:** Complaints about delayed execution and latency issues are raised, affecting the trading experience negatively.
- **Spread Manipulation and High Commissions:** There are concerns about spread manipulation and high commissions, which some traders feel are unfair.
- **Account Management:** Sudden account suspensions or bans without satisfactory explanations are a common complaint.
- **Withdrawal and Payout Issues:** Delays in payouts and issues with withdrawing profits are highlighted as significant concerns.

## Promotions and Discounts

True Forex Funds occasionally offer promotions. The company does not focus on acquiring customers through promotions. Discounts on challenges are not available throughout the year, but only occasionally. It is recommended to always check if they are available at the time of purchasing an account.

**Use our code to receive a discount:**

## Affiliations

### True Forex Funds affiliate program offers:

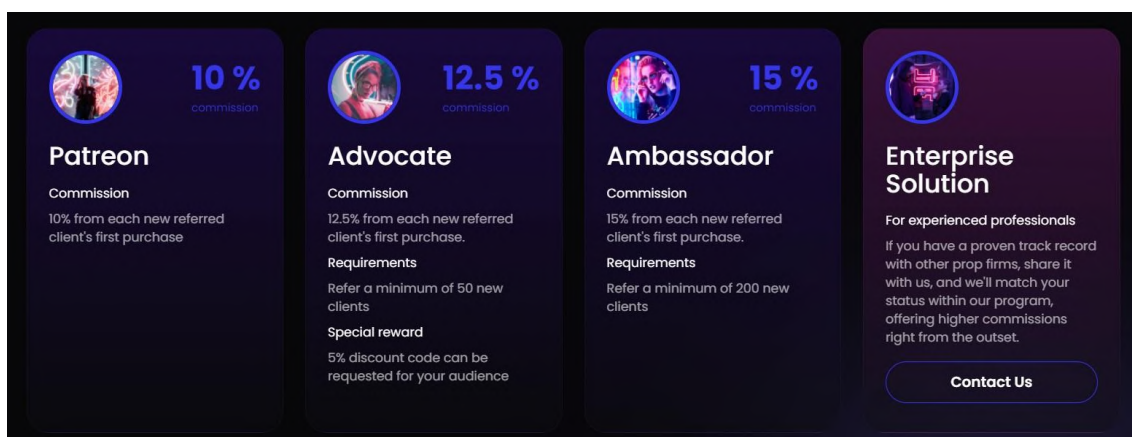

#### Payout process

Affiliates are paid on the 15th day of each month for sales that occurred during the previous period. A minimum payout threshold of €300 is set, and affiliates must have referred at least ten separate customers to qualify. Self-purchases are permitted in this program.

The affiliate rewards are automated, meaning affiliates do not need to take any action to receive their earnings. These rewards are sent directly to the affiliates' chosen payout method.

#### Rewards scheme benefits

The company seeks to acknowledge and reward dedication by offering up to a 15% commission for every newly referred customer. Affiliates, whether working from the comfort of their homes or anywhere else in the world, can tap into vast online audiences using their referral links. Additionally, upon reaching the Advocate tier, affiliates have the option to request a 5% discount, which they can offer to their audience as an added incentive.

True Forex Funds Affiliate Tier System

#### Rewards scheme benefits

The website and business model in question are characterized by one of the highest conversion rates in the industry. Such high rates indicate a higher likelihood of referred individuals purchasing products. When a customer transitions from an affiliate's site to this website and then returns to make a purchase within 60 days, credit is attributed to the referring source.

#### Affiliate area

To facilitate easy navigation through the affiliate area, one should visit the Affiliate website provided via email, sign in, and select "Reports" on the left sidebar. This allows access to all information regarding affiliate relations.

To view individuals who have signed up using a unique link, clicking on "Commission" and checking the affiliate's Order ID number will provide the necessary details.

## Summary

The True Forex Funds certification report analyzes a prop-trading platform allowing investors to trade in Forex with external financing. Traders undergo a two-phase evaluation, aiming for an 8% profit in phase one and 5% in phase two, with a 5% daily and 10% overall drawdown limit, without a minimum trading days requirement. The platform offers various account sizes in three currencies, with up to \$400,000 funding. A single-phase second program demands a 10% profit in 30 days, with a 5% daily and 10% overall drawdown limit and a minimum of 5 trading days. Profit-sharing is 80% for traders.

The platform features a scaling plan for traders to increase deposits every three months, up to \$2.5 million, requiring an 8% profit over 90 days and at least three successful withdrawals. It offers a range of assets for trading, including currencies, indices, and cryptocurrencies.

Financial transactions on True Forex Funds are facilitated through cards, bank transfers, and cryptocurrencies, with bi-weekly withdrawals and options like USDT and Advcash. Customer support is provided via email and live chat, and the platform actively engages on social media.

True Forex Funds also includes tools for trade analysis and educational resources on its website, helping traders develop their strategies. The True Forex Funds is a company worthy of cooperation and recommendation.
